# Southeastern Regional *Youth for Christ Conference* **Medical Personnel**

**Purpose of Medical Personnel:** To provide EMERGENCY first aid to participants of the Southeastern Youth Conference. Medical personnel work in conjunction with the youth's local youth coordinator.

**Attention Counselors:** Do **NOT** send a youth to the medical office; rather BRING him or her to the medical office. Please teach youths of this order for medical emergencies. Also, please teach youth what an emergency is versus non-emergency.

(Example)

**Emergency:** Asthma attack, sprained ankle, bee stings, feeling faint.

**Non-Emergency:** Indigestion, usual menstrual cramps, or constipation. The majority of the times, the medical staff are engaged in treating non-emergencies, leaving them unavailable for the true emergencies.

## ***TIPS TO REINFORCE WITH YOUTH PRIOR TO COMING TO THE CONFERENCE.***

### 1. **Bring emergency medications with you and keep them with you at all times.**

**Example:** Asthmatics – carry your inhalers with you at all times, even if you haven't had an attack in years. Reason: change in environment, different state, different stressors can lead to an attack, therefore be prepared.

### 2. **Health Maintenance**

- a. Good nutrition always; including fiber and water.
  - b. Adequate rest/ sleep daily
  - c. Importance of having regular bowel movements, treating any problems
  - d. Good daily hygiene; bring your own personal supplies.
3. Due to past experiences, we are now aware that some youth are susceptible to dehydration and heat stroke during the week's conference. Below are symptoms and recommendations:
- |                     |             |
|---------------------|-------------|
| a. Headache         | d. Fever    |
| b. Light-headedness | e. Vomiting |
| c. Dizziness        | f. Weakness |

### **Recommendations:**

1. Drink plenty of water or Gatorade before the trip (begin at least 24 hours prior)
2. Take all prescribed medication as ordered daily.
3. Eat well-balanced meals daily, being careful to include all food groups, i.e., fruits, vegetables, meat, dairy, grain, fiber, etc. Drink water daily; limit carbohydrates.
4. Arrange frequent rest periods during the day, (i.e, at least 15-20 minutes every 3 hours due to high temperatures. Rest in shaded area.)
5. Wear loose fitting light fabric clothing.
6. Please see your counselor immediately with any medical problem.

***Thank You***
